

MPN: NLPB8

Product Name: M8 Shield Anchor Projection Bolt

Brand: Newlec

Category: Bolts & Nuts

Product Description: The M8 Shield Anchor Projection Bolt is suitable for use in concrete, brickwork, and stone. It is designed to provide secure and reliable fastening, with a high load-bearing capacity. This anchor bolt is ideal for situations where it is necessary to support the weight of the fixture during installation, such as fixing cable trays, ducting, and trunking.

Key Features:

- Secure and Reliable Fastening
 - High Load-Bearing Capacity
 - Easy and Versatile Installation
 - Corrosion-Resistant Zinc Plating
-

Specifications:

- Thread size (metric): 8
- Drill hole diameter (mm): 14
- Bolt length (mm): 55
- Material: Steel
- Surface protection: Galvanic/electrolytic zinc plated
- Model: Drive-in type
- Thread type: Metric

ETIM class: Anchor fixing (EC000048)

ETIM features:

- Thread size (metric): 8
 - Drill hole diameter (mm): 14
 - Bolt length (mm): 55
 - Material: Steel (EV000179)
 - Surface protection: Galvanic/electrolytic zinc plated (EV003454)
 - Model: Drive-in type (EV003645)
 - Thread type: Metric (EV003712)
-

Applications:

- Suitable for use in concrete, brickwork, and stone
- Ideal for fixing cable trays, ducting, and trunking
- Can be used in various construction and installation projects
