

MPN: NLAH814

Product Name: 8-14mm 6.5mm Horizontal Flange Beam Clip

Brand: Newlec

Category: Girder Clips

Product Description: The NLAH814 is a horizontal flange fastener made up of a Zinc/Aluminium flake coated steel body. It is designed to provide a solid fixing to steel construction without the need for welding or drilling. This beam clip is suitable for suspension from horizontal flanges of chain, wire, etc. It is also suitable for hollow wall mounting and includes caps for mounting holes to maintain the IP rating.

Key Features:

- Versatile suspension from horizontal flanges of chain, wire, etc.
 - Material finish F8+.
 - Suitable for hollow wall mounting.
 - Includes caps for mounting holes to maintain IP rating.
-

Specifications:

- Type of fastening: Clamping
- Connection type construction part: Chain
- Flange thickness (mm): 8 - 14
- Tube/cable diameter (mm): 6.5 - 6.5
- Material: Steel
- Surface protection: Zinc/aluminium flake coating
- Breaking load (N): 882.5

ETIM Class-9.0: Beam clip (EC000464)

ETIM Features:

- Type of fastening: Clamping (EV007463)
- Connection type construction part: Chain (EV000221)
- Flange thickness (mm): 8 - 14
- Tube/cable diameter (mm): 6.5 - 6.5
- Material: Steel (EV000179)
- Surface protection: Zinc/aluminium flake coating (EV007200)
- Breaking load (N): 882.5

Applications: This beam clip is commonly used in construction projects where a solid fixing to steel structures is required without the need for welding or drilling. It is suitable for suspending various items from horizontal flanges, such as chains and wires. The hollow wall mounting capability makes it versatile for different installation scenarios while maintaining the IP rating.
