

MPN: NLFC11

Product Name: 19 x 11mm Beam Clamp For Threaded Rod

Brand: Newlec

Category: Threaded Rod

Product Description: The NLFC11 is a girder clamp made up of a solid steel construction complete with galvanised zinc plating. It is specifically designed for use with threaded rods, providing a secure and reliable connection for various applications.

Key Features:

- Material finish: F1, Spring steel.
- Easy installation and adjustment.
- High-quality construction for durability.
- Suitable for use with threaded rods.
- Galvanised zinc plating for corrosion resistance.

Specifications:

- Type of fastening: Clamping
- Connection type construction part: Thread
- Material: Steel
- Surface protection: Galvanic/electrolytic zinc plated

ETIM Class-9.0: Beam clip (EC000464)

ETIM Features:

- Type of fastening: Clamping (EV007463)
- Connection type construction part: Thread (EV003906)
- Material: Steel (EV000179)
- Surface protection: Galvanic/electrolytic zinc plated (EV003454)
- Breaking load (N): 2304.56

Applications:

- Suitable for securing beams and girders with threaded rods in construction projects.
- Ideal for industrial applications requiring a reliable and adjustable connection.
