MPN: NLC5EPP24A

Product Name: CAT5e 24 Port for Data Network Cabinet 19 Inch Patch Panel

Brand: Newlec

Category: Patch Panels

Product Description: The CAT5e 24 Port Patch Panel from Newlec is designed for efficient data network management. It provides a reliable and organized solution for connecting and managing network cables in a data network cabinet. With its 19-inch form factor, it can easily be mounted in standard network cabinets. The patch panel is compatible with Cat5 ISO11801 Class E or EN50173 Class E standards, ensuring high-performance data transmission.

Key Features:

- Cat5 ISO11801 Class E or EN50173 Class E compliant.
- 110/Krone/Newlec NLC5ETOOLA compatible IDC style punchdown for easy termination.
- Front slide-in cable label for easy port identification.
- Terminates 4 pairs of 22-26 AWG unshielded cable.
- Detachable rear cable management for efficient cable organization.
- 24 ports for connecting multiple network devices.

Specifications:

- Number of outlets/connections: 24
- Type of connector: RJ45 8
- Category: 5E
- Connection type: Insulation displacement connector

ETIM Class-9.0: Patch panel copper (twisted pair) (EC001128).

ETIM Features:

- o Number of outlets/connections: 24
- o Type of connector: RJ45 8(4) (EV000014)
- o Category: 5E (EV004113)
- o Connection type: Insulation displacement connector (EV001308)
- o Colour: Black (EV000206)
- o Mounting method: 482.6 mm (19 inch) mounting (EV000777)

Applications:

- Suitable for data network cabinets.
- Ideal for use in commercial and residential network installations.
- Perfect for organizing and managing network cables in office environments.
