

MPN: NLRCDEP4A

Product Name: Insulated 4 Module IP20 DIN Rail Enclosure

Brand: Newlec

Category: Din Rail Enclosures

Product Description: The Insulated 4 Module IP20 DIN Rail Enclosure (MPN: NLRCDEP4A) is a high-quality enclosure designed to provide protection and organization for control circuit devices. It is manufactured by Newlec, a trusted brand known for its reliable electrical products. This enclosure is specifically designed for use with DIN rail installations, offering a convenient and space-saving solution for housing electrical components. With its IP20 degree of protection, it ensures the safety and integrity of the enclosed devices. The Insulated 4 Module IP20 DIN Rail Enclosure is an ideal choice for various applications that require secure and organized control circuit installations.

Key Features:

- Insulated enclosure for enhanced safety.
- Suitable for DIN rail installations.
- Accommodates 4 modules.
- IP20 degree of protection for reliable performance.
- Durable construction for long-lasting use.

ETIM Class-9.0: Enclosure for control circuit devices (EC000200)

ETIM Features:

- Degree of protection (IP rating): IP20 (EV006405)

Applications:

- Control circuit installations
- Industrial automation
- Building automation
- Electrical panel installations
- HVAC systems
- Energy management systems
