

**MPN:** NLCUT1A

**Product Name:** Single Channel 24/7 Din Rail Mounting Single Module 230v Digital Timer

**Brand:** Newlec

**Category:** Time Switches

---

**Product Description:** The NLCUT1A is a versatile single channel digital timer designed for 24/7 scheduling in various applications. It is specifically designed for easy installation on a 35mm DIN rail. With its compact single module width, it offers a space-saving solution for time-controlled operations. The timer operates on a 230v power supply and provides reliable and accurate timing functions.

---

#### **Key Features:**

- Max 99-day programme: Allows for flexible scheduling options up to 99 days in advance.
  - Manual override: Provides the ability to manually control the timer outside of the programmed schedule.
  - 16 on & offs per day: Offers the flexibility to set up to 16 on and off events per day.
  - Shortest switching time 1 minute: Provides precise control with a minimum switching time of 1 minute.
  - Summer/winter switch over (manual): Allows for easy adjustment between summer and winter time settings.
  - 32 Memory locations: Stores up to 32 different timing programs for convenience and flexibility.
  - 35mm DIN rail mountable: Designed for easy installation on a standard 35mm DIN rail.
  - One module width: Compact design with a single module width for space-saving installation.
- 

#### **Specifications:**

- Power Supply: 230v
- Mounting: DIN rail
