

MPN: NLNY20ATSE

Product Name: 20mm Flexible Conduit Gland 90° Elbow IP68 PVC Black Complete With Locknut

Brand: Newlec

Category: PVC Flexible Conduit & Accessories

Product Description The NLNY20ATSE is an angled flexible conduit fitting made up of a black nylon construction complete with locknuts, providing additional strength for a stable connection. It is designed for use with 20mm nominal tube diameter PVC flexible conduits. The product is self-extinguishing and offers IP66, IP67, IP68, and IP69k performance ratings. It is also halogen-free, ensuring safety and compliance with environmental regulations.

Key Features

- One piece quick-fit fitting for easy installation.
 - Integral face seal washer for enhanced sealing performance.
 - Self-extinguishing for added safety.
 - IP66, IP67, IP68, and IP69k performance ratings for reliable protection against dust and water ingress.
 - Halogen-free construction for environmental compliance.
-

Specifications:

- Material: Plastic
- Material qualifier: Polyvinyl chloride (PVC)
- Surface protection: Untreated
- Halogen-free: Yes

ETIM Class-9.0: Bends for conduit (EC000936)

ETIM Features:

- Material: Plastic (EV000139)
- Material qualifier: Polyvinyl chloride (PVC) (EV000163)
- Surface protection: Untreated (EV006034)
- Halogen-free: Yes
- For nominal tube diameter (mm): 20
- Diameter (mm): 20
- Two-piece: No
- Colour: Black (EV000206)
- Bend angle (°): 90

Applications:

- Suitable for electrical installations requiring a 90° angled connection in PVC flexible conduit systems.
- Ideal for use in commercial, industrial, and residential applications.
- Provides a secure and reliable connection for routing and protecting electrical cables and wires.
- Can be used in indoor and outdoor environments, offering excellent resistance to various weather conditions.
- Suitable for applications where halogen-free materials are required for safety and environmental compliance.
