

MPN: NL24HR7DDTS1

Product Name: 13A Digital Plug-In Programmable 24 Hour 7 Way Time Clock

Brand: Newlec

Category: Time Switches

Product Description: The 13A Digital Plug-In Programmable 24 Hour 7 Way Time Clock by Newlec is a convenient plug-in controller that allows you to switch appliances on/off at pre-set times. It offers a reliable and efficient solution for automating your electrical devices.

Key Features:

- Compact design for easy installation and portability.
 - Up to 20 on/off programmes selectable over individual days, providing flexibility in scheduling.
 - Manual override function for immediate control.
 - Easy-to-use segment setting dial for quick and accurate programming.
 - Suitable for 13A (3kW) appliances, filament lamps up to 400W, and 100W low energy/fluorescent lighting.
-

Specifications:

- Number of module spaces (modular system): 1
- Type of fastening: Engage (snap)
- Colour: White
- Power reserve (h): 24
- Nominal voltage (V): 240

ETIM Class-9.0: Programmable time switch (EC001594)

ETIM Features:

- Number of module spaces (modular system): 1
- Type of fastening: Engage (snap) (EV009216)
- Colour: White (EV000202)
- Power reserve (h): 24
- Nominal voltage (V): 240
- Rated current (A): 13
- Max. power (W): 400
- Model: Electronic (EV000101)

Applications:

- Home automation
- Energy management
- Lighting control
- Appliance scheduling
