

MPN: NLCWSN

Product Name: Electro-Galvanised Catenary Wire Suspension Strainer Wire Tensioner

Brand: Newlec

Category: Wire Suspension & Catenary

Product Description: The Electro-Galvanised Catenary Wire Suspension Strainer Wire Tensioner, MPN NLCWSN, is a wire tensioner made up of a solid steel construction. It features an electro-galvanised surface finish and a screw hook and eye (10mm diameter) for straining catenary wires wherever necessary. This tensioner is designed to provide reliable and secure wire suspension in various applications.

Key Features:

- Screw hook and eye (10mm diameter) for easy installation and adjustment
- Expanded length: 245mm maximum
- Minimum length: 155mm
- Electro-galvanised finish for enhanced durability and corrosion resistance

ETIM Class-9.0: Universal suspension system (EC011590)

ETIM Features:

- End fastening: With eyelet end (EV022472)
- Material locking device/tensioner: Steel (EV000179)

Applications:

- Suitable for use in wire suspension and catenary systems.
- Ideal for applications where reliable wire tensioning is required.
