

MPN: NLCWPN

Product Name: 2 Inch Ring Electro-Galvanised Catenary Wire Suspension Anchor Plate

Brand: Newlec

Category: Wire Suspension & Catenary

Product Description: The NLCWPN is a solid steel plate complete with a galvanized surface finish and an attached ring. It is designed for fastening and securing catenary wires, providing a firm anchor point. The galvanized finish ensures durability and corrosion resistance.

Key Features:

- Plate size: 50 x 50mm.
 - Creates a firm anchor point, ideal for fastening and securing catenary wires.
 - Galvanized finish for enhanced durability.
 - Includes 2 x steel locknuts and 2 x shroud for secure installation.
-

Specifications:

- Material: Steel
- Finish: Electro-Galvanized
- Plate Size: 50 x 50mm
- Included Components: 2 x Steel locknuts, 2 x Shroud

ETIM Class-9.0: Universal suspension system (EC011590)

ETIM Features:

- Material locking device/tensioner: Steel (EV000179)

Applications:

- Ideal for use in electrical installations, construction projects, and industrial applications where catenary wires need to be securely fastened and anchored.
