

MPN: NL24HR7DELTS

Product Name: 16A 24 Hour 7 Day Programmable Digital Immersion Heater Time Clock

Brand: Newlec

Category: Immersion Heaters & Replacement Stats

Product Description: The NL24HR7DELTS is a versatile and reliable 16A 24 Hour 7 Day Programmable Digital Immersion Heater Time Clock. It is designed to provide precise control over the operation of immersion heaters, ensuring efficient and convenient heating solutions. With its user-friendly interface and advanced programming capabilities, this time clock offers a convenient way to manage your immersion heater's schedule.

Key Features:

- 4 on/4 off easy-set programme periods per day.
 - Automatic summer/winter changeover.
 - Optional 1- and 2-hour boost button.
 - Load rating: 16A resistive (4A inductive).
-

Specifications:

- Number of module spaces (modular system): 1
- Mounting method: Surface mounted
- Type of fastening: Mounting with screw
- Colour: White

ETIM Class-9.0: Programmable time switch (EC001594)

ETIM Features:

- Number of module spaces (modular system): 1
- Mounting method: Surface mounted (EV000384)
- Type of fastening: Mounting with screw (EV006354)
- Colour: White (EV000202)
- Power reserve (h): 2
- Rated current (A): 16
- Model: Electronic (EV000101)

Applications: The NL24HR7DELTS is suitable for a wide range of applications including residential, commercial, and industrial settings. It can be used in conjunction with immersion heaters to control the heating of water in tanks, boilers, and other heating systems.
