

MPN: NL24HRTS

Product Name: 16A Segmented 24 Hour Immersion Heater Time Clock

Brand: Newlec

Category: Immersion Heaters & Replacement Stats

Product Description: The NL24HRTS is a 16A segmented 24-hour immersion heater time clock designed for both new and existing immersion heater systems. It offers up to 24 on and off programmes, with the option to add additional pins. The time clock can be easily installed with bottom or rear entry for cable, and it fits a standard 32mm deep flush or surface mount box. The LED indicators provide easy viewing, and the easy-to-use setting pins allow for quick and convenient programming. With 96 quick-set segments, it supports up to 48 on/off programmes.

Key Features:

- Specially designed for installation with both new and existing immersion heater systems.
 - Up to 24 on & off programmes (additional pins required).
 - Bottom or rear entry for cable.
 - Easy-to-use setting pins.
 - 96 quick-set segments for up to 48 on/48 off programmes.
 - LED indicators for easy viewing.
 - Fits a standard 32mm deep flush or surface mount box.
-

Specifications:

- Assembly: Insert for modular wiring accessories
- Number of module spaces (modular system): 1
- Model: Electronic
- Time setting (min): 1440 – 1440

ETIM Class-9.0: Mechanical timer (EC000107)

ETIM Features:

- Assembly: Insert for modular wiring accessories (EV011832)
- Number of module spaces (modular system): 1
- Model: Electronic (EV000101)
- Time setting (min): 1440 - 1440
- Mounting method: Trunking mounted (EV003187)
- Colour: White (EV000202)
- Rated current (A): 16

Applications:

- Suitable for residential and commercial immersion heater systems.
- Ideal for controlling the timing of hot water production.
- Can be used in various heating applications where precise time control is required.
