

**MPN:** NLFH2KW

**Product Name:** 2kw (Non BEAB Approved) Portable Fan Heater

**Brand:** Newlec

**Category:** Fan Heaters

---

**Product Description:** The NLFH2KW is a powerful and portable fan heater designed to provide efficient heating in various environments. With a maximum power output of 2kw, this heater is suitable for both residential and commercial use. Its compact size and lightweight design make it easy to move and position wherever heat is needed. The NLFH2KW features thermostatic control with frost protection, allowing for precise temperature regulation and preventing freezing in cold conditions. It also offers a choice of heat settings, including a cool blow option for use during warmer seasons. Safety is a top priority, and this fan heater is equipped with a manual reset cut-out and a safety fused link to ensure reliable operation.

---

#### **Key Features:**

- Thermostatic control with frost protection.
  - Choice of heat settings including cool blow.
  - Manual reset cut-out and safety fused link.
  - Portable and lightweight design for easy transportation.
  - Suitable for residential and commercial use.
- 

#### **Specifications:**

- Mounting method: Free standing model
- Connected load (kW): 2 -
- Colour: White

---

## **ETIM Class-9.0:** Convector / fan heater (electric) (EC000523)

### **ETIM Features:**

- Mounting method: Free standing model (EV000870)
- Connected load (kW): 2 -
- Colour: White (EV000202)
- Width (mm): 265
- Height (mm): 150
- Depth (mm): 260
- With fan: Yes

---

### **Applications:**

- Residential spaces
- Offices
- Workshops
- Garages
- Small retail stores
- Temporary heating solutions
