

MPN: NLEV

Product Name: Expansion Vessel + Check Valve For Unvented Heater

Brand: Newlec

Category: Spares

Product Description Should be installed if the length of pipework is too short to accommodate the expanded hot water without re-entering the cold-water supply.

Key Features

- 2.8m of pipework is required for a 10-litre heater.
- 4.2m of pipework is required for a 15-litre heater.
- Provides hot water to single or multiple outlets.
- Fed directly from the cold-water mains supply and operates at the same water pressure.
- External temperature control and neon element on indicator.
- IPX4 rated - protected against water splashing from any direction.
- Safety resettable thermal cut out - simply switch off to reset.

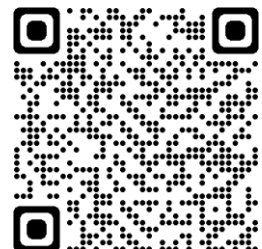

ETIM Class-9.0: Membrane pressure expansion vessel (EC010958)

ETIM Features:

- Volume (l): 2
- Colour: White (EV000202)

Applications

- Suitable for unvented water heating systems
