

MPN: NLSDS0CH

Product Name: 250mm Heavy Duty SDS Chisel Point Drill Bit

Brand: Newlec

Category: Drill Bits

Product Description: The 250mm Heavy Duty SDS Chisel Point Drill Bit by Newlec is ideal for breaking out the core of material still in contact with the drilled substrate after core drilling. Its durable steel construction allows it to withstand the rigors of everyday use, while the sharp, pointed tip enables it to penetrate hard materials easily. The SDS shank equips the chisel to be used with a variety of hammer drills, making it versatile for a range of tasks including breaking up concrete, demolishing masonry, removing tiles, chiselling wood, and making holes in metal. Its strong and durable construction, made from high-quality steel, ensures impact resistance.

Key Features:

- **Durable steel construction:** The chisel is made of durable steel that can withstand the rigors of everyday use.
 - **Sharp, pointed tip:** The chisel has a sharp, pointed tip that allows it to penetrate hard materials easily.
 - **SDS shank:** The chisel is equipped with an SDS shank, allowing it to be used with a variety of hammer drills.
 - **Versatile:** The chisel can be used for a variety of tasks, including breaking up concrete, demolishing masonry, removing tiles, chiselling wood, and making holes in metal.
 - **Strong and durable construction:** Made from high-quality steel that is impact resistant.
-

Specifications:

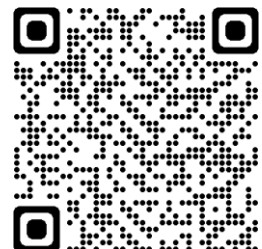

- **Length:** 250mm
- **Cutting edge shape:** Pointed

ETIM Class-9.0: Chisel (EC000146)**ETIM Features:**

- Length (mm): 250
- Cutting edge shape: Pointed (EV000430)

Applications:

Suitable for breaking up concrete, demolishing masonry, removing tiles, chiselling wood, and making holes in metal.
