

MPN: NLSDS20CH

Product Name: 250 x 20mm Heavy Duty Drill SDS Chisel Drill Bit

Brand: Newlec

Category: Drill Bits

Product Description: The NLSDS20CH is an ideal tool for breaking out the core of material still in contact with the drilled substrate after core drilling. Its heavy-duty construction and versatile functionality make it an essential chisel for general masonry removal work. It is perfect for transmitting the hammer blow of SDS Plus machines and can be used in SDS Plus machines with a roto-stop facility.

Key Features:

- Ideal for general masonry removal work.
 - An everyday essential chisel.
 - Perfect for transmitting the hammer blow of SDS Plus machines.
 - Can be used in SDS Plus machines with roto-stop facility.
 - Heavy duty.
 - Versatile functionality.
-

Specifications:

- Length: 250mm
- Cutting edge width: 20mm
- Cutting edge shape: Flat Surface

ETIM Class-9.0: Chisel (EC000146)

ETIM Features:

- Length (mm): 250
- Cutting edge width (mm): 20
- Cutting edge shape: Flat Surface (EV000880)

Applications:

- Masonry removal
- Core drilling residue removal
- Construction and demolition tasks
