

MPN: NL110JB

Product Name: 10TPI Carbon Steel Jigsaw Blade For Wood

Brand: Newlec

Category: Cutting

Product Description: A jigsaw blade 10TPI Carbon Steel For Wood is a type of jigsaw blade that is designed for cutting wood. The blade has 10 teeth per inch, which helps to create a smooth, clean cut. The blade is made of carbon steel, which is a strong and durable material that can withstand the heat and sparks generated when cutting wood. The blade is also heat-treated to ensure that it maintains its sharpness even after repeated use.

Key Features:

- Designed with 10 TPI for fast, clean cuts in hard and soft woods.
 - Teeth are ground and tapered.
 - Blades are manufactured from High Carbon Steel for strength and durability.
 - Fast and Efficient Cutting.
 - Durable Construction.
-

Specifications:

- Material: Carbon Steel
- Teeth Per Inch: 10
- Heat-treated for durability

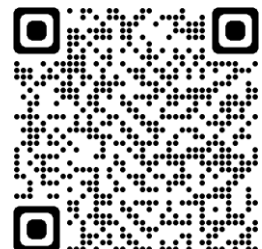

ETIM Class-9.0: Jig saw blade (EC002242)

ETIM Features:

- Number of teeth per inch: 10

Applications:

- Ideal for cutting wood in woodworking and carpentry applications
