

PN: NLSW100

Product Name: Easylock Suspension System Cable 100m Drum

Brand: Newlec

Category: Wire Suspension & Catenary

Product Description: Wire rope suspension is increasingly being used for mounting building services components in commercial, public sector, and industrial buildings. There are major advantages of flexible positioning and installation productivity benefits.

Key Features:

- Installation is reduced compared to that for threaded rods, reducing installation costs
 - Easily be installed at an angle, increasing the range of suspension points that can be used
 - An efficient solution for suspending electrical services
 - Lightweight
 - Tidy bar for hassle-free uncoiling
 - Fully adjustable
 - Can be installed vertically or at angles
 - SWL 45kg with a 5:1 safety factor
-

Specifications:

- Length: 100m
- Material: Wire rope
- SWL: 45kg
- Safety Factor: 5:1

ETIM Class-9.0: Universal suspension system (EC011590)

Applications:

- Suitable for commercial, public sector, and industrial buildings
- Ideal for mounting building services components
- Versatile suspension solution for electrical services
