

MPN: NLCC6

Product Name: 15.2mm No6 Polyethylene Black Armoured Cable Fixing Cleat

MPN: Newlec

Category: Cable Fixing Cleat

Product Description: The NLCC6 is a heavy-duty black plastic cable fixing cleat designed for clamping and securing armoured cables. It is suitable for industrial and commercial applications, offering high strength, impact resistance, and stability in temperatures ranging from -35 to 85°C. The cleat is made from polyethylene, a strong and durable material that provides corrosion and UV light resistance. The No6 size of this fixing cleat makes it suitable for use with armoured cables. It is designed with a hole in the centre for the cable to pass through, ensuring proper installation and cable management.

Key Features:

- Heavy-duty construction.
- Stable at temperatures -35 to 85°C.
- Suitable for industrial and commercial applications.
- Corrosion and UV light resistant.
- No6 size for use with armoured cables.
- Designed for clamping and securing armoured cables.
- Offers high strength and impact resistance.
- Centre hole for cable passage.

Specifications:

- Material: Polyethylene
- Colour: Black
- Size: 15.2mm No6
- Temperature Range: -35 to 85°C
- Corrosion Resistance: Yes
- UV Light Resistance: Yes

ETIM Class-9.0: EC012160

ETIM Features:

- Material: Plastic (EV000139)
- Surface Protection: Untreated (EV006034)

Applications:

- Industrial facilities
- Commercial buildings
- Construction sites
- Power plants
- Telecommunication networks
