

ABOUT

The Cable Jack is an innovative cable spooling device. It uses your existing 44mm Cable Rod tube, along with metal collars and legs, to form an 'A' frame. You can use this frame as a lightweight spooler for small domestic jobs. The two metal collars slide onto the 44mm tube. You can leave them in place and slide rolls of cable over the assembly. Then, by screwing the legs into the collars, you lift the rolls off the ground allowing them to turn freely.

APPLICATION

- Spool • Holds up to 35kg

SPECIFICATION

Product Name	Cable Jack
Item Code	SRJK
Length	450mm
Attachments	See Contents

CONTENTS

2 x Aluminium Collars
4 x 335mm Fibreglass Legs
1 x 450mm length packaging tube
