

MPN: NL556KPG

Product Name: Adaptable Box 100X100X37Mm Pre-Galvanised With 12X20Mm Knockouts

Brand: Newlec

Category: Adaptable Boxes

Product Description: Adaptable boxes are used to either extend or repair electrical circuits, whether its indoors or outdoors.

Key Features:

- Multiple knockouts provide flexible cable entry.
- Impact resistant
- Long-lasting
- Optimum strength against vibration and pull-out for complete reliability
- Annealed after final pressing to guarantee ductility and electrolytically tin plated to avoid oxidation.

Specifications:

- Finish Galv
- Material Steel
- Type With knock outs
- Knock Out Size 12 x M20
- Standard of Compliance BS 4568

ETIM Class-9.0: Mounting box for floor systems (EC000119)

ETIM Features:

- Length (mm):100
- Width (mm):100
- Depth (mm):37
- Model: Support shape (EV007855)
- Mounting method installation unit: Screwing (EV000766)
- Material: Metal (EV000914)

Applications:

- **Housing Electrical Connections:** Adaptable boxes are used to house and protect electrical connections, ensuring that wires and terminals are safely enclosed. This is crucial for preventing accidental contact and short circuits.
- **Junction Boxes:** They serve as junction boxes where multiple electrical cables converge. This allows for organized and secure connections, facilitating easier maintenance and troubleshooting.
- **Conduit Fittings:** The boxes are fitted with 20mm knockouts to accept standard UK conduit fittings. This makes them versatile for different wiring configurations and ensures compatibility with various conduit systems.
- **Customizable Knockouts:** The knockouts include a unique drill start feature for use with 25mm conduit fittings if required. This adaptability allows for customization based on specific installation needs.
