Short unscreened jack CAT6 UTP 4PPoE Black
GGM NKJUC6TL

New small jack, tool free connection offering quick and efficient installation. It is certified CAT6 and 4 PPoE by an independent laboratory. The contacts are formed and positioned to reduce unwanted coupling between pairs and reduce the crosstalk. The completely automated production of printed circuits and a thorough inspection at the end of production guarantees the homogeneity of the fabrication. Disposing of "tool-free connection" technology the jack requires no insertion tool, which simplifies and reduces assembly time. Finally, its compact design (ultra-reduced depth of 28 mm) allows space to be optimised in the workstation trunking (facilitates the cable bending radius) and in the control panel with a 24 port solution in a 19" 0.5U panel. Possibility to include a moveable white anti-dust shutter (except for 0.5U panel).

- Model : Bus (jack)
- Type of connector : RJ45 8(8)
- Category : 6
- Special tool necessary : No
- Suitable for round cable : Yes
- Suitable for flat cable : No
- Suitable for litz wire conductor : Yes
- Suitable for solid core : Yes
- Colour : Black
- AWG-range : 22 - 24
