

## KEYSTONE COUPLER

GGM 6210240U00

RJ45 COUPLE UTP C5E BLACK KEYSTONE

The unscreened RJ45 couplers allow the connection, using patch cord, of the RJ45 male connectors.

They ensure the traditional function of cable extension.

Those of "keystone" format provide easy mounting on 24 port patch panels (GGM PAN24VK) but also in 45 x 45 wall box faceplates (GGM PL45IS ...) and in surface mounted boxes (GGM 627019000).
