*Each pack includes 3 power cells.

FEATURES

CONTROL AND TECHNOLOGY

Module WiFi Inside¹

Touch panel with display

Comfort, Eco and Anti-frost mode

Bluetooth pairing

Inverter Smart Adaptive Tech

Mg-Fe alloy cells

Single & Dual feed system

Compatible with voice assistants

EFFICIENCY

Smart charge function

+55%
High heat retention storage

AI
Artificial Intelligence

Open Windows function

Early Start function

TRP consumption meter²

GPS automation

FUNCTIONALITY

Programmable product & App

4 pre-installed programmes

Product and App lock

Limited mode for guests

Boost mode max. power

Night saving mode

Holiday mode

Countdown timer

DESIGN AND FINISHES

Adjustable to 2 heights

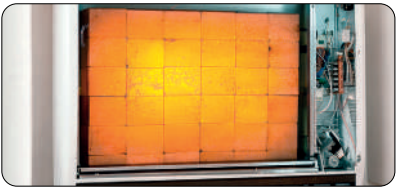

STEEL
100% metal body

Ceramic fan rotor

1) Compatible with 2.4 GHz Wi-Fi networks.
2) The figure may vary depending on the circumstances of the electrical installation.

DIRECT CONTROL WITHOUT GATEWAYS
Integrated Wi-Fi module that allows direct connection to the router without the need for intermediate gateways.

HIGH HEAT RETENTION (HHR)
The quality of its materials means that **more than 55% of the stored heat** is retained even after 16 hours.

SMART CHARGE FUNCTION
ONYX charges at the optimal moment within its programmed schedule to deliver the desired comfort while saving energy.

INVERTER OPERATION
Thanks to the **INVERTER SMART ADAPTIVE TECH** technology, the Onyx storage heater automatically adjusts the fan speed, intelligently and continuously adapting to the heating needs of each room.

This regulation improves the management of energy consumption and ensures constant thermal comfort.
