

DeWalt Cutter Safety Trainers

Cutter Safety Trainers

These DeWALT cutter safety trainers are traditional steel toe cap trainers to protect your feet in hazardous environments but are designed for comfort. The mesh and leather upper ensures they remain lightweight, flexible and give you that casual style look and also make you feel like you are just wearing normal trainers. The padded collar and tongue ensure these cutter safety trainers are comfortable to wear and also have a anti-bacterial comfort inner sole. The mesh allows air to get to your feet making them breathable so you can keep them on for longer periods of time making them more productive.

These DeWALT sports safety trainers are ideal for clean, light industrial use and are available in UK sizes 6 to 12.
