STANDARD RANGE

The Wylex Standard range of consumer units remains one of the most widely used ranges in domestic circuit protection applications.

Originally designed with fuses in mind, standard consumer units can easily be upgraded to current standards by using the plug in range of MCBs.

This time saving feature offers installers an economical alternative to full consumer unit replacement.

The range also includes SP&N switch fuses up to 100A allowing for submain circuit installation or system extensions/additions to be easily completed.
