

PLATINUM

An extensive range of power, control and lighting accessories, available in a range of high quality metal finishes as either screw-fit flat plate or clip-on screwless low profile plate.

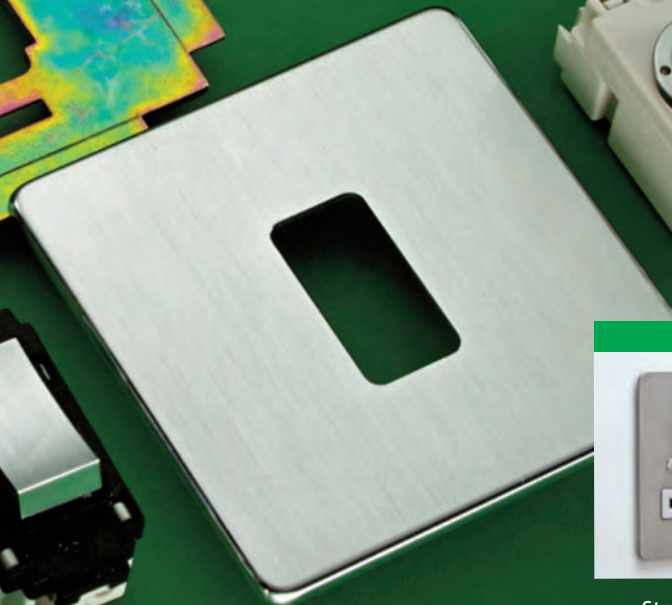

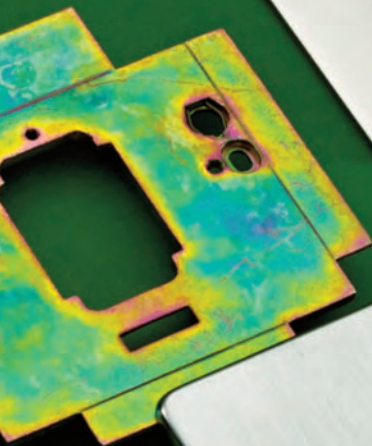

With no compromises between style and function, the Platinum range is slim, stylish and packed with solid Crabtree engineering.

Wide Concave rockers are easy to operate

Positive drive switch action prevents balancing between the 'on' and 'off' position and gives reliable indication of the contact position
