FIREFLY FIRE SAFETY CLIPS: SAVING LIVES IN THE EVENT OF A FIRE

firefly™
FIXINGS
from Marshall-Tufflex

To comply with BS 7671:2018 IET Wiring Regulations, Marshall-Tufflex supply a range of Firefly fire clips to secure cables internally or externally of trunking or conduit. The clips are designed to secure all surface cables throughout an installation.

- Fire safety clips to comply with BS 5839-1
- For use within trunking and conduit
- Spring loaded design for easy installation or removal of cables
- Designed for quick installation and to maximise internal trunking space
- Internal version to fit within trunking prior to cables being installed
- External version to retrofit onto existing installations
- Melt point over 1000°C
- Kits available including all required fixings/screws ready for installation

Regulations

Regulations state that wiring systems shall be supported such that they will not be liable to premature collapse in the event of a fire.

Firefly clips meet the requirements of the current version of BS 7671 Wiring Regulations to secure surface cables and to avoid the risk of entanglement in the event of a fire.

Firefly clips feature rounded ends, preventing damage to cables and injury to installers. The spring-loaded design makes it straightforward to install and to add or remove cables after the initial installation.
