

Occupancy Display Panels

Occupancy Display Panels

SAFE ROOM

**New
Product**

Clear indication of room safety / simple operation / interim time programmable from 1 second to 10 days / single box, compact solution / can be wired to a standard 13A plug (1 amp fused)

Part Number	Description	Price	Per
ECSR100	Green, Amber, Red LEDs	£125.00	1

Reflex Pendant Control Stations

Reflex Pendant control stations (IP65)

Europa's in-house production department can build bespoke pendants to the required specification. Available in 2 - 12 button configurations. See datasheet for options.

For more information contact technical on 01582 692 444.

EN 60947-5-1

The ergonomically designed, IP65 pendants are resistant to oils and atmospheric agents. The rugged, shockproof casing has a working temperature range between -25°C and +70°C.

Switching is provided by mechanically interlocked, self-cleaning silver alloy contacts. They are available in single contact (N/O or N/C), dual speed (2x N/O), dual redundancy (2x N/C) and electrically interlocked (N/O + N/C) versions.

Part Number	Description	Price	Per
ECPEND02P	2 Button Up, Down	£49.27	1
ECPEND03PP	3 Button - Interlocked E-stop, Up, Down	£68.41	1
ECPEND04P01	4 Button Up, Down, Right, Left	£113.93	1
