

Switch/Modular plates

With a plate profile of 3.5mm the Penthouse Collection sets the standard for a truly flush finish. The Penthouse Collection's range of switch plates uses a hidden clip-in fixing that attaches securely to the rear mounted grid. Earthing the front plate is ensured by fitting a scraping earth to the adjustable grid.

Rocker switch plates & grids

Plate	P401	P402	P403	P404
Grid	G401	G402	G403	G404
Box Flush (metal)	1702	1702	1703	1703

Switch/Modular interiors

Rocker switches are manufactured from brass, aluminium or plastic, finished to either complement or match the cover plates. Neons are available in red with white, black or red trim, or green with white or black trim. Key switches are white or black. Red interiors are available for special applications such as essential supply, etc. Alternative colour combinations can be supplied to order. Due to the grid mounting nature of the product range it is possible to mix any combination of plate finish with interior finish. It is recommended that samples are viewed before specifying. All switches are rated at 250V 20Amps except cat No. 15 & 17 which are rated at 6Amp.

Rocker switches

Unit	Switch	Switch	Switch	Switch	Switch	Switch	Switch	Wireless Switch
Type	1 way	2 way	Double pole	Intermediate	2 way & off	6Amp retractive push-to-make/ push-to-break	6Amp retractive 2 way & off	RF switch

*Key switches are supplied with one key.

Modular interiors outlets

The range has been cleverly designed to allow bespoke outlet arrangement without the need for a specially designed custom unit. For example Data, Voice and AV outlets can be matched together using our existing grids and switch plates.
