**Zip's mains fed chillers are designed for the work place environment, they provide fresh drinking water at a fraction of the cost of bottled water and can pay for themselves in a matter of weeks.**

Users are provided with an endless supply of fresh chilled filtered water without having to worry about constantly paying for bottled water.

Moreover, valuable office space to store water bottles is saved, security is improved and there is no need to wait for another delivery.

### **Features and benefits**

Initial draw-off up to eight glasses.

Up to 140 glasses recovery per hour.

Easy to replace submicron double action filters.

Great tasting, freshly filtered, drinking water.
