Description: Filter fan for forced ventilation. Eldon filter fans save time on installation as they are installed with a click-in system without screws. The hinged front cover can be easily opened for quick and easy filter replacement. The airflow direction and the connection position can easily be changed.

Material: Front cover made of injection-moulded thermoplastic, self-extinguishing, UL94V0.

Ambient temperature range: -40°C to +55°C.

Protection: IP 54 | TYPE 12.

Finish: RAL 7035.

Approvals: CE, GOST, UR, cUL.

Pack quantity: One fan with filter.
