Description: Filter fan for forced ventilation. Eldon filter fans save time on installation as they are installed with a click-in system without screws. The hinged front cover can be easily opened for quick and easy filter replacement. The airflow direction and the connection position can easily be changed. The new filter mat gives higher air flow and longer life with a low pressure drop because of special construction. The UV resistance of the housing makes it the best option for outdoor applications.

Material: Front cover made of injection-moulded thermoplastic, self-extinguishing, UL94V0. UV resistance.

Ambient temperature range: -40°C to +55°C.

Protection: IP 55 | TYPE 12.

Finish: RAL 7035.

Approvals: CE, GOST, UR, cUL.

Pack quantity: One fan with filter.
