

"DAVE SAYS" QUALITY MAKES THE DIFFERENCE

Unlike builders' cold chisels, which are designed to be used on brick and stone, our engineers' chisels and punches are made from chrome vanadium steel, which provides added strength and durability, making them ideal for use on metal. All the heads on our cold chisels and punches are chamfered to slow down the formation of the mushroom shape caused by hammering, although, 'mushrooming' is a necessary feature to avoid the head from chipping.

1 622/3/PP
