

2-channel switching options

Non-dimming distribution box for use in applications that require two independently switched lighting circuits, or lighting and ventilation circuits. Learn more on page 53.

Order Code	Description
VITM4-S-2CH	Starter module with 4 pole, 4 outputs. 2-channel. Power rating of system 16A (at 230VAC). Rating of each output 10A (at 230VAC)

Order Code	Description
VITM4-E-2CH	Extender module with 4 pole, 4 outputs. 2-channel. Power rating of system 16A (at 230VAC). Rating of each output 10A (at 230VAC)

2-channel, 2-supplies switching options

Non-dimming distribution box for use in applications that require two independent supplies for switching, lighting and/or ventilation circuits. Essential and non-essential. Learn more on page 53.

Order Code	Description
VITM4-S-2CH-2S	Starter module with 4 pole, 4 outputs. 2-channel, 2-supplies. Power rating of system 16A (at 230VAC). Rating of each output 10A (at 230VAC)

Order Code	Description
VITM4-E-2CH-2S	Extender module with 4 pole, 4 outputs. 2-channel, 2-supplies. Power rating of system 16A (at 230VAC). Rating of each output 10A (at 230VAC)
