

'ELEGANCE' - AXIAL WITH EC MOTOR

- **EL1003 SAP Q Eligible and Energy Saving Trust Best Practice Compliant**
- For all domestic wet rooms
- 3 Speed fan
- To exhaust air and fumes directly outside or through medium lengths of ducting
- Easy wall, ceiling or window (with optional kit) installation
- Runs continuously at one of two lower speeds (fixed at installation)
- Boost speed achieved by means of integral cord, or after removing cord with:
 - remote switch
 - PIR sensor
 - DRH240 (dynamic remote humidistat)
- Air intake around whole perimeter
- All models splashproof (IPX4)
- **Suitable for installation in Zones I and II**
- Comfort timer models - 2 min delay on timer activation
- Patented anti-turbulence deflectors ensure very low noise levels and optimum performance
- Humidity Control Models with Night Time Set Back and Anti-Hunting Device
- Anti-vibration gasket
- Made of shock proof technopolymer
- EC induction motor with maintenance free, long life bearings (30,000 hours) and thermal protection
- Double Insulated
- Maximum ambient temperature 40°C
- Fans comply with IEC60335-2-80, BT2006/95/CE and EMC2004/108/CE (European Directive against radio interference and electro-magnetic compatibility)
- Fans are CE Marked
- Comply with Building Regulations Parts L1 2010 and F 2010
