Media Plate

Where multiple power, telecom, TV and AV outlets are required in one place, Deta's Media Plate provides the perfect solution.

Deta Media Plates provide the flexibility to configure the installation to meet your individual requirements.

To make the installation even easier, the flush mounting box has a divider between the mains voltage sockets and the extra low voltage modules (refer to BS7671 IEE Wiring Regulations).

Also available in Slimline and Ultra Flatplate ranges.

Back Box - Media Plate
