

Order Code	Description
VITM6-EBDSPIR-DD	Compact ceiling mounted PIR presence/absence detector with Direct Dim and time delay function (up to 20 ballasts). DALI/DSI

For detection pattern please see page 19.

Order Code	Description
VITM6-EBMHS-DD	Miniature PIR presence detector with Direct Dim and time delay function (up to 10 ballasts). DALI/DSI

For detection pattern please see page 23.

(Note: this detector does not support Absence detection)

Order Code	Description
VITM6-MWS6-DD	Low profile microwave presence/absence detector with Direct Dim and time delay function (up to 20 ballasts). DALI/DSI

For detection pattern please see page 37.

Order Code	Description
VITM6-MWS3A-DD	Adjustable head microwave presence/absence detector with Direct Dim and time delay function (up to 20 ballasts). DALI/DSI

For detection pattern please see page 33.

i Analogue dimming (AD) detectors available on request

PROGRAM FROM GROUND LEVEL

The IR transmitting and receiving technology in our handsets and detectors has been carefully designed to allow programming from ground level.

	Order Code	Description
	UNLCDHS	Professional commissioning handset
	UHS5	Commissioning handset
	UHS7	User handset

Order Code	Description
VITM6-L3-DD	Detector lead for single DD detectors (3 metre)

Order Code	Description
VITM-MCFUSC	VITM Marco basket fixing clip
