CABLE MARKERS

CABLE CARRIERS

CABLE TIE CARRIERS

ADHESIVE CARRIERS

SELF-ADHESIVE CABLE CHANNEL

CLIP CARRIERS

Ademark cable marking system is a unique one marker size system to suit all applications on conductors from 0.22mm² to 150mm². The one simple system allows marking to be carried out either prior to or post termination. The carriers provide protection against harmful acids, alkalis, oil, grease and general dirt and abrasion.

STEP 1

Select the required markers from the dispenser board using the metal insertion tool.

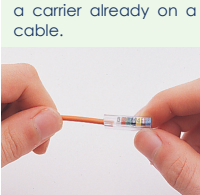

STEP 2

Insert the markers into the clear carriers which will fit conductors from 0.22mm² upwards.

STEP 3

Slide carriers onto cables or attach with cable ties. Markers can be inserted into a carrier already on a cable.

ADEMARK - STARTER KIT

The Ademark Starter Kit is all you need for cable, route and component marking. This one simple system allows marking to be carried out either prior to or post termination. It is a quick, effective way to reduce installation time. Conveniently arranged in a custom designed case ideal for site and maintenance applications.
