

SWITCHLITE KIT MSF

Art. no. 96218678

Application

To use the SWITCHLITE MRE SLD recessed PIR presence detector (96 218 677) for surface mounting applications, the surface mounting kit SWITCHLITE KIT MSF is added to the detector.

Mounting and installation instructions

- The distance between two drilling holes for mounting the box is either 50 or 60mm.
- Mount surface box onto the ceiling and remove the mini trunking knockout (if required)
- Detach the mains cover of the sensor (96218678), set the timing and light level and plug in the connector. Do not re-fit the mains cover to the sensor.
- Loosely push the unit into the surface box (higher part of sensor back turned to face screw) and secure it with the screw.

Technical data

Dimensions	Ø 76mm, height: 65mm
Housing material	Flame retardant ABS
Weight	Approx. 0.2kg
