

Newlec B Tungsten Holesaw

22mm

Product Code: NLTHS22

Holesaw with tungsten carbide tips.

Features & Benefits:

- Tungsten carbide tips - excellent wear resistance.
- Ideal tip angle - light, smooth cutting yet very fast.
- Suitable for cutting steel up to 4.5mm thick, such as stainless steel, carbon steel, aluminium and cast iron.
- Machined from a single piece of material which means extra strength and no joint to fracture.
- Replaceable pilot drill.
- Spring for automatic plug removal.
- Variable tip placement reduces vibration.
- Safety collar prevents over-cutting for a safer, faster cut.
