

# LED CORN LAMP WITH INTEGRAL DRIVER

LED-COB10070-E40CW

3 YEAR WARRANTY

CRI 70

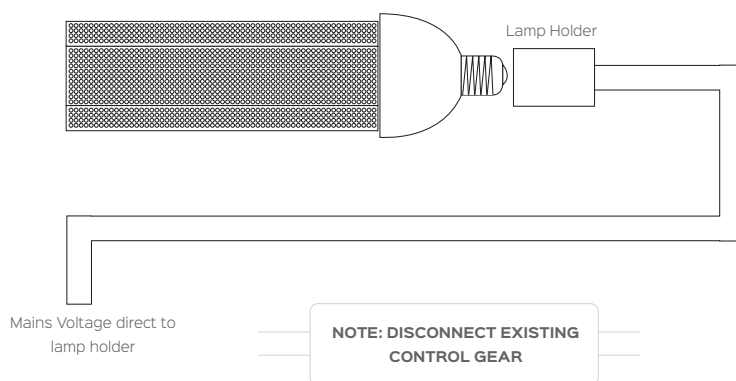

IP 20

50,000 LIFE HOURS

Using LED as a replacement for HID lighting, provides an easy to install cost effective solution saving up to 75% on existing lighting and compared to sodium lighting a more natural white light compared to the orange glow of sodium. As LED is instant strike and re strike, there is no warm up time to full light output.

For use with open fittings such as low bay and high bay fittings the lamp is supplied with an integral driver and installation is a simple case of by passing the control gear and inserting the lamp.
