#### Cable assembly WINSTA® MIDI with protection against mismating

The *WINSTA®* MIDI cable assembly with protection against mismating is the pluggable solution for your use in control cabinets, on PCBs or for lighting connections. Whether on PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to an enormous variety of requirements in seconds. The coding options reduce installation errors, allowing fast, maintenance-free wiring of all components. The pluggable installation connector is protected against ingress by solid objects in accordance with protection type IP20 (When mated: IP2xC (These compact connectors are not designed for use in open, easily accessible areas!)). Solutions like the *WINSTA®* MIDI pluggable installation connectors are not designed for use in open, easily accessible areas!)). Solutions like the *WINSTA®* MIDI pluggable installation connectors with B coding are appropriate for applications involving process control, for example, for lighting or within data networks. The *WINSTA®* MIDI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology facilitates safe electrification. Thanks to the integrated test slot, connections can be checked even when they are plugged in. This saves time, labor, and money. Anyone who needs to worry about technical safety requirements related to fire protection for electrical installation should be able to rely on the quality of the components. Our product meets the important safety standards of fire class B2. Eliminating halogens as an additive in the production of this cable assembly significantly improves fire safety and reduces environmental contamination.

#### Fast, error-free assembly thanks to cable assemblies from WAGO

The cable assembly is equipped with a socket and a plug. The WINSTA® Pluggable Connection System is perfectly tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and therefore faster, more reliable, and error-free. Using this pre-assembled system decreases time spent on assembly and installation errors at the construction site. Choose durability and quality – the *WINSTA*® MIDI pluggable installation connector with protection type IP20 from WAGO makes the installation of electrical components substantially easier.

- pluggable installation connectors with protection against mismating
- simple circuits
- for automation controllers
- ready to install and use immediately
- fast, secure installation

#### Notes

Note

Variants:

Cables with a different fire class can be found in the eShop.

Plug-in connection	
Mismating protection	Yes
Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole
Locking lever	Can be retrofitted
Locking of plug-in connection	Locking lever
Note on locking system	All connectors for mounted installations (snap-in versions for lighting fixtures or devi- ces, all types of PCB and distribution connectors) are factory-equipped with locking le- vers to ensure plugs and sockets are securely locked. Additional locking levers are only required for flying leads (plug/socket).
