Type BW Standard Duty Pendant Stations

BW90/BW100

All of the features of the Class 9001 Type BW pendant stations with external strain relief are now pre-assembled into one catalog number.

- Push button legend inserts
- Field-installable mushroom button
- Full cover gasket, to exclude harmful contaminants
- Jumper, included on all single speed buttons (except universal types), to save wiring time
- Self-lifting pressure wire connectors, for easy wiring
- Operator and contact sold as one unit

The Class 9001 Type BW Pendant Station is a pre-assembled, 2-button station well suited for standard hoist applications. Oversized finger grips on the rear of the enclosure make it easy to grip and operate.

Features and Options

- Made of high impact thermoplastic with UL 94V rating (self-extinguishing flammability)
- NEMA 1, 3, 3R, 4, and 4X watertight, dusttight, oilResplaces 9001CT1001, 12/2010tight, and corrosion resistant
- UL Listed and CSA approved
- 1/2" conduit opening
- Internal strain-relief post
- Momentary or maintained contact
- Single speed or two speed
- With or without a mechanical interlock
- Optional external hanger bracket and seal
- Ribs on the top of the enclosure to prevent the hanger bracket from rotating and coming loose
- Contoured for easy grip
- Easy to hold with one hand

Pendant Stations Specifications

Specifications

The Class 9001 BW90 and BW100 pendant stations are used for hoist applications requiring either single-speed or two-speed buttons. These thermoplastic enclosures have a 1/2-inch conduit entrance at the top to accept a pendant cable. Internal and external strain relief comes standard. The stations are rated NEMA Type 1, 3, 3R, 4, and 4X. The enclosure is available in three colors. All universal stations have double circuit blocks (1 N.O.—1 N.C.) on each button and come without legends so they can be assembled to fit the application. For convenience, push buttons have interchangeable legend inserts. The complete line is UL listed and CSA certified.

Type XACA General Information

XACA pendant stations are designed for standard- or medium-duty control circuit applications. The enclosures are made from rugged, double insulated thermoplastic material. These stations have been designed for easy handling and operation, even with heavy work gloves.

Two styles of stations are offered: “small hoist” pistol grip stations with integral parts (see Table 14 on page 8), and “general purpose” station components with modular assembly required. The general purpose components are available as custom, factory-assembled stations. For custom applications, a wide range of operators, contact blocks, legend plates, and accessories are offered.

XACA08

Shown with optional operators and accessories.

Features

- Single- and two-speed versions
- Double insulated
- Shock and corrosion resistant
- 2, 4, 6, 8, 12 element versions
- Ease of operation

Applications

- Overhead cranes
- Tower cranes
- Fixed hoists
- Beam hoists

To place a custom pendant order, use the worksheet on 12 as a guide. Orders must be placed through the Product Selector in Quote to Cash. There is a 10% charge for assembly.

XACA Order Guide Instructions

Custom built pendant stations

1. Determine the number of operators needed, then choose an enclosure with a corresponding number of holes.
2. Select the type of operator, contact block, and appropriate nameplate for each function required. Refer to pages 8–11.
3. Check for special functions that may be required. These items could include mechanical interlocks, adapters for self-supporting cable, lower support rings, protective guards, etc.

Pendant Stations Type SKYP General Information

Type SKYP General Information

This line of pendant stations consists of polymeric enclosures (2–10 units), push button units (1–5 speed), and laminated legend plates. All enclosures have an extra single-unit space near the top that permits the installation of a toggle switch, a Type SK operator or pilot light, or a warning label (see Table 29 on page 15). All enclosures come standard with a stainless-steel hanger bracket and internal strain-relief post. The enclosures are yellow with a threaded opening in the top. The complete line is UL Listed and CSA certified, with NEMA Type environmental ratings 1, 2, 3, 3R, 4, 4X, and 12 (NEMA 4 only with legend plates installed). To ensure Type 4X and 13 integrity, use only Type 4X and 13 operators or closing plates.

There is a 10% charge for assembly. To place a custom pendant order, use the worksheet on 18 as a guide. Orders must be placed through the Product Selector in Quote to Cash.

- Class 9001 SK push-to-test pilot lights, remote-test pilot lights, and potentiometers do not fit in these enclosures.
- Assembled pendant stations consist of an enclosure, operators, and legend plates. The price of the total station consists of the prices of the individual components, plus a 10% charge for assembly. To place a custom pendant order, use the worksheet on 18 as a guide. Orders must be placed through the Product Selector in Quote to Cash.

Table 28: Push Button Units (2 Buttons per Unit)

	Description	Contact Symbol (Figure 4)	Class 9001 Type ^[1]
	Single Speed—Momentary, Interlocked	7	SKRU1
	Single Speed—Momentary, Non-Interlocked	5	SKRU10
	Single Speed—Maintained, Interlock	10	SKRU11

		Specify Marking	SKN199 ^[5]

- Maximum of 19 characters on each side.
- Available as Class 9001 Type SKSTS1—includes boot for NEMA Type 4X.
- Includes legend plate, gasket, and ground plate to be used with toggle switch.
- See Class 9001 Type SK on page 18.
- Tri-laminated legend plate with a yellow or red background on a black core.

Shallow Depth Light Modules For Type SK Control Units

- UL Listed and CSA certified
- LED light modules use a lamp with a 7-element LED cluster that provides illumination similar to incandescent illumination.
- With LED light modules, use either a clear color cap or a cap with the same color as the LED.

Table 35: Shallow Depth Light Modules For Type SK Control Units

	Voltage	Description	For Use With Single Lamp Ill. Operators as Indicated	Light Module Class 9001 Type	Voltage Assembly Code	Rating (VA)	Replacement Lamps

240	30	7200	3.0	720	10	10	250	0.27	0.27	—	—	2.5
480	15	7200	1.5	720	10	10	—	—	—	—	—	—
600	12	7200	1.2	720	10	10	600	0.10	0.10	—	—	2.5

¹ For additional Type SK push button operators (illuminated and non-illuminated), light modules, and contact blocks, see catalog 9001CT9601, *Push Button and Operator Interface Specifiers Guide*. All illuminated push button operators must use a shallow depth light module listed above. Only standard pilot lights and non-illuminated selector switches can be used in Type SKYP enclosures.

Pendant Stations Type SKYP Worksheet

Type SKYP Worksheet

	Control Products	Use this worksheet to assist in component selection. SKYP Custom Pendant orders must be placed through the Product Selector in Quote to Cash. There is a 10% charge for assembly.
Class 9001		Type SKYP - _____

1. Operator or Closing Plate.
Example: SKRU1
2. Legend Plate Type Number
Example: SKN201
3. Legend Plate Marking ▲
Used Only if Special Marking is Required
Example:
Line 2 = SKN299
Line 3 = A.) Hoist
 B.) FWD
 C.) REV

When the operator and the legend plate use 2 adjacent holes, specify the same catalog numbers in both locations. Example:

1	SKRU1
2	SKN201
3	

1	SKRU1
2	SKN201
3	

Enclosures—NEMA 4X, 13
