

OLW55E

Wing screw

Item no. OLW55E

Description: Wing screws can be used in place of each terminal box cover screw, which will allow easier access. If hinges are fitted to the terminal box, only two wing screws will be required and must be fitted opposite the hinge.

Pack quantity: 24 pieces.

Wing screws can replace the terminal box's fixation screws, which will allow for easier access without using tools, therefore operation and maintenance procedures can be performed quicker.
