SIEMENS

Data sheet   **6GT2190-0AB00**

product type designation	**fastening clip MOBY D/ E, RF300**
product description	Fixing pocket for inserting a transponder with the dimensions of a credit card
	MOBY D/E/RF300/RF600; Fixing lug for MDS E600/611/MDS D100, D200 RF360T/RF610T; in connection With spacer 6GT2190-0AA00.

suitability for use	Can be screwed directly onto non-metallic surfaces or plugged into the spacer 6GT2190-0AA00
suitability for operation	for holding the transponders RF360T, RF610T, MDS D100/D200/D400
mechanical data	
material	PA 6
color	anthracite
ambient conditions	
ambient temperature	
● during operation	-25 ... +75 °C
● during storage	-40 ... +85 °C
● during transport	-40 ... +85 °C
design, dimensions and weights	
width	57 mm
height	5 mm
depth	121 mm

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
