

Product End of Life Instructions

IFM V2 MODBUS COMMUNICATION INTERFACE

Potential disassembly risks

Hazard Categories and Special Symbols

Read these instructions carefully and look at the equipment to become familiar with the device before trying to install, operate, service or maintain it. The following special messages may appear throughout this bulletin or on the equipment to warn of potential hazards or to call attention to information that clarifies or simplifies a procedure.

ANSI

The addition of either symbol to a "Danger" or "Warning" safety label indicates that an electrical hazard exists which will result in personal injury if the instructions are not followed.

This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.

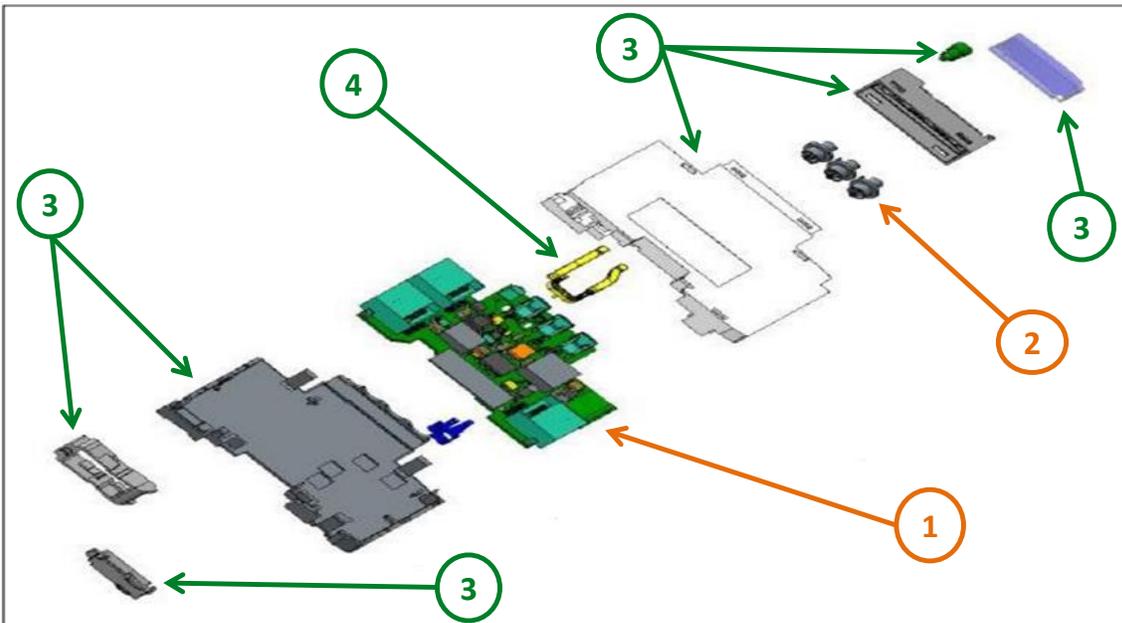

IEC

DANGER

DANGER indicates a hazardous situation which, if not avoided, **will result in death or serious injury.**

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	32.17 g	IFM Gateway PCBA
To be depolluted	2	Plastic parts with Brominated FR	1.50 g	PBT
To be dismantled	3	Plastic parts to be dismantled	34.05 g	PC, PET & Polyester
To be dismantled	4	Metal parts to be dismantled	0.85 g	Steel

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	IFM V2 is a Gateway to interface MCCBs / ACBs range (ULP to Modbus Serial).
Product reference	LV434000
Total representative product mass	74 g
Representative product dimensions	109mm x 73mm x 18mm
Accessories	TRV00217 & LV434211 (Optional). Needed if customer needs more IFM V2s to be stacked
Date of information release	11/2023

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
In case of special transportation: transportation method	No	
Recyclability potential	1%	Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO'DEEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability).
