Product description

Eaton's Bussmann® series FEH-1500B is a fuse extraction handle specifically designed to be used with XL body style Photovoltaic fuse links (see data sheet 10201)

Catalogue symbol

- FEH-1500B

Technical data

- Rated voltage: 1500 V d.c.
- Compatible fuse links: PV XL (see data sheet 10201)
- Weight: 213 grams

Standards/Approvals

- RoHS compliant
- CE compliant

Dimensions (mm)

Packaging: 1

Instructions

Step 1: Insert the top of the universal handle (A) into the fuse lugs (B)

Step 2: Move the universal handle upward until you hear a click. Now the fuse link is anchored you can remove it or insert it in a fuse holder. To remove the universal handle from the fuse link, press the red button and move the handle downward.

The only controlled copy of this data sheet is the electronic read-only version located on the Eaton network drive. All other copies of this document are by definition uncontrolled. This bulletin is intended to clearly present comprehensive product data and provide technical information that will help the end user with design applications. Eaton reserves the right, without notice, to change design or construction of any products and to discontinue or limit distribution of any products. Eaton also reserves the right to change or update, without notice, any technical information contained in this bulletin. Once a product has been selected, it should be tested by the user in all possible applications.

Changes to the products, to the information contained in this document, and to prices are reserved; so are errors and omissions. Only order confirmations and technical documentation by Eaton is binding. Photos and pictures also do not warrant a specific layout or functionality. Their use in whatever form is subject to prior approval by Eaton. The same applies to Trademarks (especially Eaton, Moeller, and Cutler-Hammer). The Terms and Conditions of Eaton apply, as referenced on Eaton Internet pages and Eaton order confirmations.
