

Eaton Easy Battery+

(Example of battery tray)

How to Extend UPS life and make your life easier with Easy Battery+?

This is a service product which is offering Eaton final customers a complete batteries tray to exchange their batteries. The whole

batteries exchange process will be therefore much **quicker and safer** than swapping batteries one by one.

Reliability

- The battery is the main component of the UPS which needs to be replaced during the life time of the product
- The use conditions of the battery can drastically reduce if the UPS runs above 30°C
- Extend UPS life or prevent a battery failure by replacing the battery tray after 4 years

Flexibility

- Eaton has designed the UPS to replace the battery tray
- The replacement is safe and easy by removing the front panel
- The battery replacement is an hot swappable solution and does not need to switch off the load and UPS

Safety

- Every battery pack includes the safety notice to make sure that the battery installation is safe

Kit selector

- Select your product before ordering the Easy Battery+

How to order and receive the battery pack?

- Order the Easy Battery+ through your usual reseller
- Afterwards, a blister is sent with a unique contract number
- Record the contract number to the address below: www.eaton.eu/BatteryRegistration
- The battery tray is sent to YOUR postal address within a week

How to install your battery pack?

- Installation made simple following video tutorials

Powering Business Worldwide
