

Product End-of-Life Instructions

Product Range: TAC Xenta 100 Series 24V Zone Controllers

Marketing Model/Name:

This document covers all TAC Xenta 100 Series 24V Zone Controllers

Purpose:

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note :

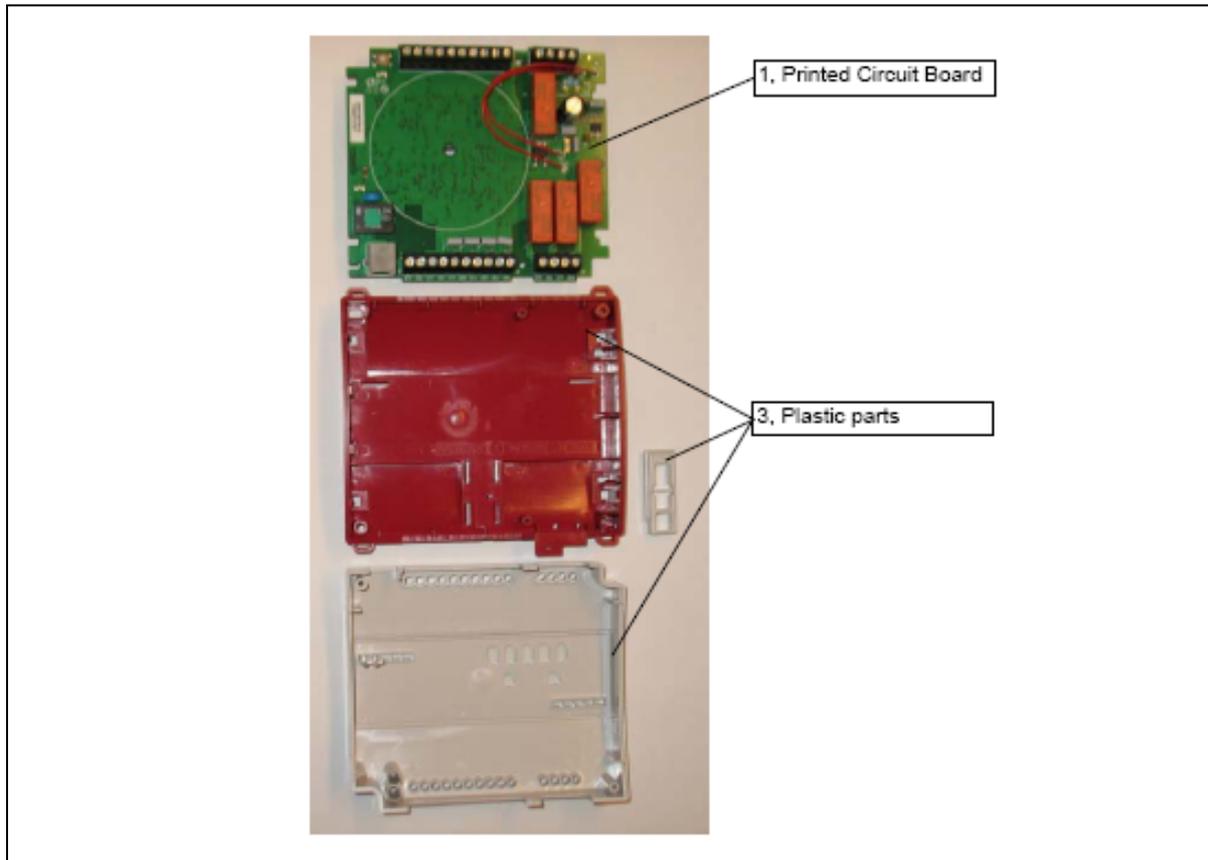

This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy :
 Reuse → Separation for special treatment → Other dismantling → Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

Recommendation	Number on drawing	Components	Weight (g)	Comment
Special treatment	1	PCBA	120 to 140	
Special treatment				
Other dismantling				
Other dismantling	3	Plastic parts	119 to 123	PC-ABS blend
Other dismantling
